## About the Trust

We deliver health and social care for over 40,000 people with mental ill health, physical ill health and learning disabilities across Hertfordshire, Buckinghamshire, Norfolk and North Essex.

We employ over 3,500 staff who deliver these services within community and inpatient settings.

CQC Rating: Outstanding since 2019.

HSJ: Mental Health Trust of the Year 2020.

## **Our Digital Strategy**

We will measure the success of our digital journey through the eyes of our service users, carers, staff, and partners.

They continue to be a key part of the implementation of our strategy, guiding the decisions we make on the technologies we use and how we use them.

### SERVICE USERS & CARERS

"I feel confident, safe and involved in my care, and can contribute effectively using digital tools. I can participate in a way that suits me and I have a range of digital options available to help me in my recovery and understand my progress online."

"Digital tools enable me to work effectively with service users, easily organise and coordinate their care along integrated care pathways and keep accurate clinical records which my colleagues here and in other organisations can access easily."

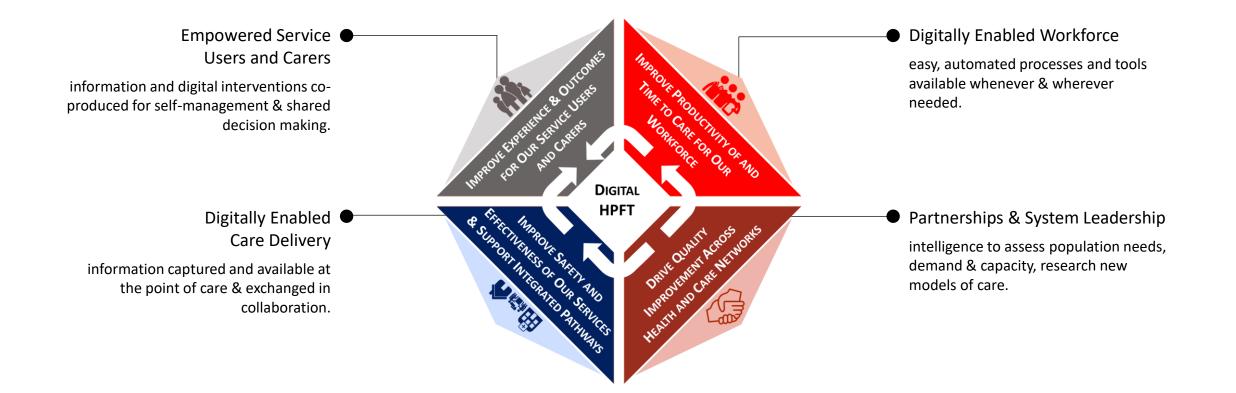

ALL STAFF

"I have the right equipment to do my job and I can easily use the systems and information I need to be effective in my role, wherever and whenever I am working to deliver safe, effective care to service users."

"We are widely recognised as a leading organisation that use information and technology to deliver great care and outcomes together, and we are an exemplar of service user orientated open and integrated digital services."
