

**Integrated care can only  
succeed if we fix the  
barriers to communication**

**Jacob Haddad**  
CEO and co-founder

**accuRx**

**Healthcare is a  
communication industry.**

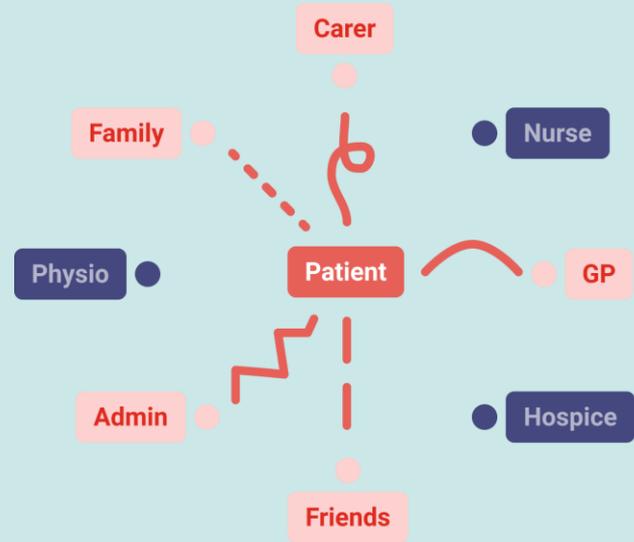

**Made a referral.**

**Got a second opinion.**

**Discussed a plan with a patient.**

**Coordinated a patient's care.**

And, when  
communication  
doesn't happen,  
things can go **wrong**.

**We've seen *some*  
progress since the start  
of the pandemic.**

Dear Mrs Power,

170/700

I have reviewed your test results and they are satisfactory. There is no need for a further appointment.

Thanks, Jacob Haddad

**While GP <> patient  
communication has improved,  
healthcare services are still  
disconnected.**

**To deliver integrated care, staff in different providers need to work seamlessly as one team around a patient.**

**But, they face a huge  
challenge...**

**They can't work seamlessly as one team if they can't hold of each other.**

**Taking learnings from  
innovation in primary care.**

# **1. Asynchronous communication**

**2. Stay simple and let staff  
innovate**

 Struggling to get BSL interpreters for F2F consultations - used @accuRx for a 3 way video consultation with a deaf mental health service user - her daughter, who is a frontline clinician, joined us to interpret - talking about video consultations for years - it's now happening.

 @accuRx Using new mail function-complex pt on blood thinner, limited service due to Covid. Impossible to get any1 on 📞. Secure message within pt record and replied back directly into record in 1 hour. The rules for GP workflow are being rewritten @NHSDigital

**Hannah Morgan** @DrHannahMorgan · Apr 15  
 Heartwarming afternoon: 5 care home rounds done in one afternoon, 55 patients seen on video: none of us had done before in any of these homes. Carers, patients, us full of smiles. So fab to see each other's faces- giggles along the way. Another 12 homes to go! @accuRx @DenbyWill

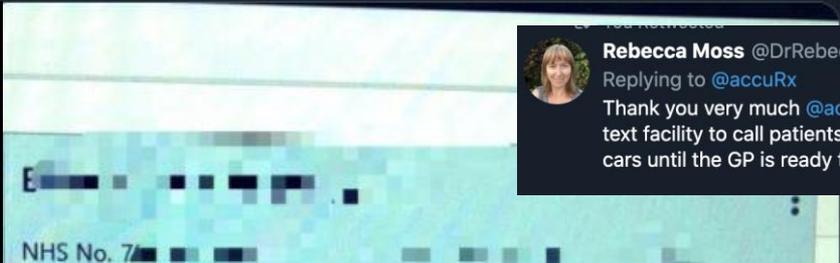

**Chris Thompson** @Dr\_CThompson · Apr 9  
 This is our working draft of how we plan to implement the COVID monitoring questionnaire. Thanks to clinical team @CSurgeryOadby for their input in putting it together

 প্রিয় মিসেস পাওয়ার,  
 আমি আপনার পরীক্ষার ফলাফল পর্যালোচনা করেছি এবং তারা সন্তোষজনক। এর জন্য আর কোনও আপয়েক্টমেন্টের দরকার নেই।  
 ধন্যবাদ,  
 ডাঃ এলিজাবেথ ব্ল্যাকওয়েল

 Thank you very much @accuRx . Works so quickly that we are using the text facility to call patients into GP rooms - so that they can wait in their cars until the GP is ready to see them.
