The Digital Nursing Team: the missing link between clinical and technical?

Elaine Tustian, Senior Divisional Nurse Informatics Lead
Simon Noel, Chief Nurse Informatics Officer

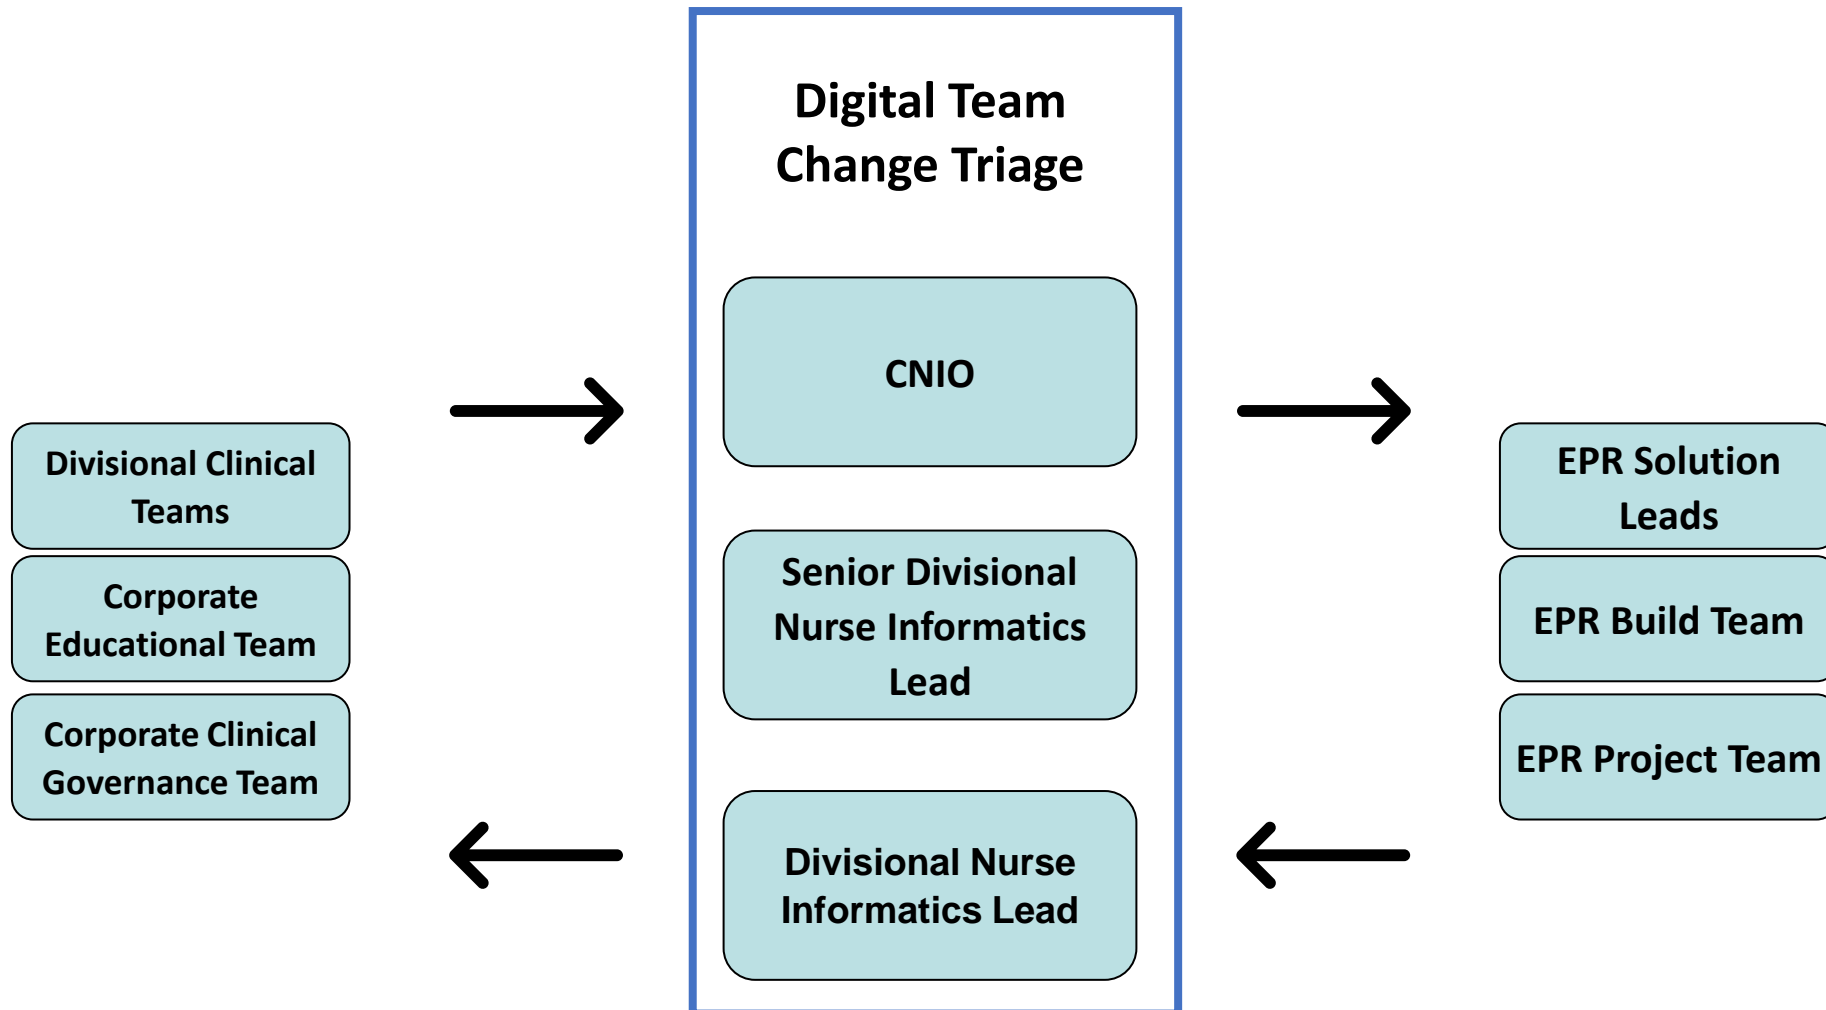

In 2020/21 we provided care through:

- **1,059** beds
- **1,033,271** outpatient appointments
- **74,171** emergency admissions
- **112,474** emergency department attendances
- We delivered **7,322** babies
- We employ over **14,000 staff** (including 4,378 nurses and 2,000 medical and dental)
- Turnover **£1,054 million**

OUH Digital Profile

- Laboratory and radiology
- ePMA fully rolled out
- Comprehensive clinical documentation on all sites
- Comprehensive Nursing assessment and planning process
- HIMSS 6 on one site (NOC)
- Gaps still exist, e.g. ICU, Maternity, Outpatients

The Nursing Digital Team

Benefits and Operational “Wins”

- Embedding of key personnel in the digital team
- Change is clinically led
- Face to face clinical credibility
- Staff feel listened to and supported
- Shared learning
